

Eley Griffiths Group Mid Cap Fund - Class A

January 2025

The Fund offers investors exposure to a diversified portfolio of Australian listed mid and small cap companies that primarily reside outside the S&P ASX50 Index. EGG's goal is to consistently outperform over the long term through all market conditions, irrespective of the economic cycle. To achieve this, EGG believes that a style agnostic approach to constructing portfolios is optimal.

Eley Griffiths Group

Founded in 2003, Eley Griffiths Group ("EGG") is an Australian specialist investment management company. EGG is 100% owned by its staff and the investment team is heavily aligned with client outcomes.

Philosophy: EGG believes that markets do not always price small cap companies efficiently and that these inefficiencies can be exploited using market experience and a disciplined stock selection methodology. The investment case for a stock can only be established through rigorous qualitative and quantitative analysis on a company-by-company basis and subject to several risk filters. The application of a proven investment process combined with active risk management is key to adding value through the market cycle.

Style: EGG is not constrained by traditional growth or value styles, believing an investment process and style needs to be flexible and adaptable to a dynamic global economy. Our portfolios are built from the "bottom up" and are based on forward-looking relative earnings growth subject to valuation and a qualitative overlay - an approach that ensures we are not anchored to any one style of investing. This approach aims to provide consistent outperformance through all market conditions, irrespective of the economic cycle and is generally known as style neutral or style agnostic investing.

Mid Cap Fund - Class A

The Fund offers investors exposure to a diversified portfolio of Australian and New Zealand listed mid and small cap companies that reside outside the S&P ASX50 Index. The Fund is benchmarked against the 70% S&P/ASX Mid Cap 50 Accumulation Index and 30% S&P/ASX Small Ordinaries.

The team combines fundamental bottom-up research of companies with an in-depth qualitative assessment of their management and industry structure. Our proprietary investment process, known as SCOPE (Small Company Optimal Portfolio Evaluation), is a relative stock scoring tool that ranks stocks from highest to lowest based on their score. The portfolio comprises the best scoring stocks, subject to a number of risk constraints, such as maximum active position size and liquidity.

This fund is appropriate for investors with "High" and "Very High" risk and return profiles. A suitable investor for this fund is prepared to accept high risk in the pursuit of capital growth with a medium to long investment timeframe. Investors should refer to the [TMD](#) for further information.
