Eley Griffiths Group

Founded in 2003, Eley Griffiths Group ("EGG") is an Australian specialist investment management company. EGG is 100% owned by its staff and the investment team is heavily aligned with client outcomes.

Philosophy: EGG believes that markets do not always price small cap companies efficiently and that these inefficiencies can be exploited using market experience and a disciplined stock selection methodology. The investment case for a stock can only be established through rigorous qualitative and quantitative analysis on a company-by-company basis and subject to several risk filters. The application of a proven investment process combined with active risk management is key to adding value through the market cycle.

Style: EGG is not constrained by traditional growth or value styles, believing an investment process and style needs to be flexible and adaptable to a dynamic global economy. Our portfolios are built from the "bottom up" and are based on forward-looking relative earnings growth subject to valuation and a qualitative overlay - an approach that ensures we are not anchored to any one style of investing. This approach aims to provide consistent outperformance through all market conditions, irrespective of the economic cycle and is generally known as style neutral or style agnostic investing.
