Eley Griffiths Group

Founded in 2003, Eley Griffiths Group (“EGG”) is an Australian specialist investment management company. EGG is 100% owned by its staff and the investment team is heavily aligned with client outcomes.

Philosophy: EGG believes that markets do not always price small cap companies efficiently and that these inefficiencies can be exploited using market experience and a disciplined stock selection methodology. The investment case for a stock can only be established through rigorous qualitative and quantitative analysis on a company-by-company basis and subject to several risk filters. The application of a proven investment process combined with active risk management is key to adding value through the market cycle.

Style: EGG is not constrained by traditional growth or value styles, believing an investment process and style needs to be flexible and adaptable to a dynamic global economy. Our portfolios are built from the “bottom up” and are based on forward-looking relative earnings growth subject to valuation and a qualitative overlay - an approach that ensures we are not anchored to any one style of investing. This style-neutral, or style-agnostic, approach is designed to provide flexibility across different market environments and seeks to deliver long-term outperformance of the relevant benchmark.
