ELEY GRIFFITHS GROUP

Eley Griffiths Group Emerging Companies Fund

October 2026

The Fund offers investors exposure to a diversified portfolio of Australian listed emerging companies that primarily reside outside the S&P ASX200 Index. EGG's objective is to outperform the relevant benchmark over the long term. EGG seeks to achieve this through a style-agnostic approach to portfolio construction that is designed to identify investment opportunities across a range of market conditions and economic cycles.

Eley Griffiths Group

Founded in 2003, Eley Griffiths Group ("EGG") is an Australian specialist investment management company. EGG is 100% owned by its staff and the investment team is heavily aligned with client outcomes.

Philosophy: EGG believes that markets do not always price small cap companies efficiently and that these inefficiencies can be exploited using market experience and a disciplined stock selection methodology. The investment case for a stock can only be established through rigorous qualitative and quantitative analysis on a company-by-company basis and subject to several risk filters. The application of a proven investment process combined with active risk management is key to adding value through the market cycle.

Style: EGG is not constrained by traditional growth or value styles, believing an investment process and style needs to be flexible and adaptable to a dynamic global economy. Our portfolios are built from the "bottom up" and are based on forward-looking relative earnings growth subject to valuation and a qualitative overlay - an approach that ensures we are not anchored to any one style of investing. This style-neutral, or style-agnostic, approach is designed to provide flexibility across different market environments and seeks to deliver long-term outperformance of the relevant benchmark.

Emerging Companies Fund

The Fund offers investors exposure to a diversified portfolio of Australian listed emerging companies that reside outside the S&P ASX200 Index. The Fund is benchmarked against the S&P ASX Small Ordinaries Accumulation Index.

The team combines fundamental bottom-up research of companies with an in-depth qualitative assessment of their management and industry structure. Our proprietary investment process, known as SCOPE (Small Company Optimal Portfolio Evaluation), is a relative stock scoring tool that ranks stocks from highest to lowest based on their score. The portfolio comprises the best scoring stocks, subject to a number of risk constraints, such as maximum active position size and liquidity.

This fund is appropriate for investors with "High" and "Very High" risk and return profiles. A suitable investor for this fund is prepared to accept high risk in the pursuit of capital growth with a medium to long investment timeframe. Investors should refer to the TMD for further information.
